

Safety Data Sheet

Product Name: Human sCD25 (IL-2R) ELISA kit CE

Kit summary

Following components used as mixtures in the kit are defined as hazardous chemical according to the Regulation (EC) N° 1272/2008.

| Component | EC-No | CAS-No | % weight | Classification (pure ingredient) | Hazard Statements |
|-------------------------------|-----------|------------|------------|----------------------------------|---|
| Sodium Azide NaN ₃ | 247-852-1 | 26628-22-8 | 0.09-0.9% | GHS06 GHS09 | H300 Cat 2 H310 Cat 1 H410 Cat 1 EUH032 |
| Proclin 300 | - | 55965-84-9 | 0.001-0.1% | GHS06 GHS05 GHS09 | H302 Cat 4 H314 Cat 1B H317 Cat 1 H318 Cat 1 H400 Cat 1 H410 Cat 1 |
| Sulfuric Acid | 231-639-5 | 7664-93-9 | 4.2% | GHS05 | H314 Cat 1A |

Other chemicals contained within these products do not meet definition of a hazardous chemical according to the Regulation (EC) N° 1272/2008.

Section 1 – Identification

Product Identification: **Human sCD25 (IL-2R) ELISA kit CE**

Product Code: **Cat- n° 950.500.096 / 192**

Product Application: **For in vitro diagnostic use**

Manufacturer:

DIACLONE SAS

6, rue Dr Jean-François-Xavier GIROD, BP 1985

F-25020 Besançon

France

Tel: +33 3 81 41 38 38

Fax: +33 3 81 41 36 36

Section 2 – Hazard Identification

2.1 Classification

This product is not classified according to the CLP regulation

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008: Void

Hazard pictograms: Void

Signal word: Void

Hazard statements: Void

Section 3 –Composition / Information on Ingredients

3.2 Mixtures

| Component | Contains | Identification | Classification (pure ingredient) | Hazard Statements | % |
|-------------------------------|------------------------|--|----------------------------------|---|--|
| Coated Microwell strips | - | - | NA | - | - |
| Standards | - | - | NA | - | - |
| Controls | - | - | NA | - | - |
| Biotinylated Antibody | ProClin 300 | CAS : 55965-84-9 EC : - REACH : - | GHS06 GHS05 GHS09 | H302 Cat 4 H314 Cat 1B H317 Cat 1 H318 Cat 1 H400 Cat 1 H410 Cat 1 | 0.1% |
| Streptavidin- HRP | ProClin 300 | CAS : 55965-84-9 EC : - REACH : - | GHS06 GHS05 GHS09 | H302 Cat 4 H314 Cat 1B H317 Cat 1 H318 Cat 1 H400 Cat 1 H410 Cat 1 | 0.001% |
| Standard diluent Buffer 10X | NaN ₃ | CAS : 26628-22-8 EC : 247-852-1 REACH : 01-2119457019-37-0000 | GHS06 GHS09 | H300 Cat 2 H310 Cat 1 H410 Cat 1 EUH032 | 0.9% |

For the full text of the H-Statements mentioned in this Section, see Section 16

Additional information

The data and advice relate to the concentrations not of the lyophilized powder, but of the prepared solution.

Section 4 - First Aid Measures

General information: Consult a doctor if necessary and provide this SDS.

After inhalation: Supply fresh air; consult doctor or poison center in case of complaints.

After skin contact: Rinse with plenty of water and soap.

After eye contact: Rinse opened eye for several minutes under running water.

After ingestion: If symptoms persist consult doctor. Do NOT induce vomiting.

Most important symptoms or effects: No available data.

Section 5 – Fire Fighting Measures

Suitable extinguishing agents: CO₂, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Specific hazards due to combustion products: Do not breathe fumes. Smoke from fires is toxic. Take precautions to protect personnel from exposure. Decomposition products may include carbon oxides.

Protective equipment for firefighters: Wear chemical protection suit and positive-pressure breathing apparatus. Wear protective clothing.

Section 6 – Accidental Release Measures

Person-related safety precautions: Wear appropriate PPE.

Measures for environmental protections: Do not allow to enter sewers / surface or ground water.

Measures for cleaning / collecting: Dilute with plenty of water and absorb with wipe dry.

Section 7 – Handling and storage

7.1 Handling

Information for safe handling: Avoid breathing dust, vapour, mist or gas. Avoid contact with eyes, skin and clothing. Keep container tightly closed. Use with adequate ventilation.

Follow standard laboratories practices.

Information about fire - and explosion protection:

The product listed in this SDS contains sodium azide, a chemical highly toxic in pure form. At product concentrations, though not classified as hazardous, concentration build-ups of sodium azide may react with lead and copper plumbing to form explosion.

7.2 Storage

Requirement to be met by storerooms and receptacles: Store in a cool, dry, well ventilated area away from incompatible substances. Keep away from metal ions.

Storage class: Store product and all components at 2-8°C.

Section 8 – Exposure Controls / Personal Protection

8.1 Control of exposition

The product does not contain any relevant quantities of material with critical values that have to be monitored at the workplace.

8.2 Personal protective equipment

General protective and hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals.

Respiratory protection: Not required.

Protection of hands: Protective gloves.

Eye Protection: Goggles recommended during refilling

8.3 Environmental exposure controls

Not available.

Section 9 - Physical and Chemical Properties

Form: Liquid

Colour:

| Components | Ingredients | Colour |
|-------------------------------|---|-------------|
| Biotinylated Antibody | ProClin 300 (0.1%) | Colourless |
| Standard diluent Buffer 10X | NaN ₃ (0.9%) | Red |
| Biotinylated Antibody Diluent | NaN ₃ (0.09%) | Blue |
| Streptavidin-HRP | ProClin 300 (0.001%) | Clear amber |
| HRP Diluent | ProClin 300 (0.1%) | Green |
| TMB Substrate | 2-Pyrrolidinone Urea hydrogen peroxide | Colourless |
| Stop reagent | Sulfuric Acid (4.2%) | Colourless |

Odour: Odourless

pH: N/A

Melting point/Melting range: N/A

Boiling point/Boiling range: N/A

Flash point: N/A

Evaporation rate: N/A

Autoignition temperature: N/A

Danger of explosion: Product does not present an explosion hazard

Density: N/A

Viscosity: N/A

Solubility in / Miscibility with water: Fully miscible

Section 10 - Stability and Reactivity

10.1 Reactivity

No available data

10.2 Chemical stability

Thermal decomposition: No decomposition if used according to specifications.

Light: TMB tinge in blue under light exposition.

10.3 Others

Hazardous reactions:

Sulfuric acid: produces hydrogen when contact of metals.

Reagents containing NaN₃: Toxic fumes when contact with acid.

Incompatibilities:

Sulfuric acid: with strong bases, alkali metals, organic materials, organic solvents, peroxides, permanganates, hydrides, phosphorus and phosphorous oxides.

Streptavidin-HRP: strong oxidising agents.

Reagents containing NaN₃: acid, metal, acid chloride.

Reagents containing Proclin 300: strong oxidising or reducing materials, amines.

TMB: with some common metals ions (such as iron).

Hazardous decomposition products:

Sulfuric acid: Toxic fumes of oxides of sulphur when heated. Reacts with carbonates to generate carbon dioxide gas, and with cyanide and sulfides to form poisonous hydrogen cyanide and hydrogen sulphide respectively (concentrated Sulfuric Acid).

TMB: Decomposition products may include carbon oxides.

Section 11 - Toxicological Information

Route of entry: Skin Contact, Eye contact, Inhalation, Ingestion.

Effects of acute exposure to Product:

Acute poisoning may cause gastrointestinal irritation and renal failure. May be harmful if inhaled, swallowed or absorbed through the skin.

Effects of chronic exposure to Product:

Chronic ingestion may result in salicylism which is characterized by nausea, vomiting, gastrointestinal ulcers, and hemorrhagic strokes. Laboratory experiments have shown some mutagenic effects. Target organs: Kidneys and central nervous system.

Exposure Limits: Not available

Irritancy: Not available

Sensitization to Product: Not available

Carcinogenicity: IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC

Teratogenicity: Not available

Reproductive Toxicity: Not available

Mutagenicity: TMB possibly mutagenic, not proved.

Synergistic Products: Not available

Section 12 – Ecological Information

Toxicity: Harmful for aquatic life

Persistence and degradability: Not available

Bioaccumulative potential: Not available

Mobility in soil: Not available

Results of PBT and vPvB: Not available

Others harmful effects: Hazardous for water

Section 13 – Disposal Considerations

Waste disposal: dispose of in accordance with local official environmental regulations.

Section 14 – Transport Information

Special shipping information: Does not need to be shipped as hazardous.

Section 15 – Regulatory Information

Labelling in accordance with EC directives

Observe the general safety regulations when handling chemicals.

The product is not subject to identification regulations under EC Directives.

Section 16 – Other Information

This information is prepared on our present and best knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Full text of any Hazard statements under Section 3:

H272: May intensify fire; oxidiser

H300: Fatal if swallowed

H302: Harmful if swallowed

H310: Fatal in contact with skin

H314: Causes severe skin burns and eye damage

H317: May cause an allergic skin reaction

H318: Causes serious eye damage

H319: Causes serious eye irritation

H400: Very toxic to aquatic life

H410: Very toxic to aquatic life with long lasting effects

EUH032: Contact with acids liberates very toxic gas

Abbreviations:

CAS: Chemical Abstracts Service

CLP: Regulation (EC) No 1272/2008 on Classification, Labelling and Packaging of Substances and Mixtures

IARC: International Agency for Research on Cancer

PBT: Persistent, Bioaccumulativ, Toxic

vPvB: very Persistent, very Bioaccumulativ.

REACH: Registration, Evaluation, Authorization and restriction of CHemicals

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. DIACLONE SAS shall not be liable for any damages resulting from handling or from contact with the above products.
